

Weekly School Counseling Curriculum

SCHOOL COUNSELING

Starting during the 2020-2021 school year, all OPS Middle School and High School students in grades 6-12 will participate in personalized weekly lessons from their School Counselors. Lessons will improve students' competency in social-emotional learning, academics, career, and post-secondary education. Students will increase their knowledge, reflect on their discoveries, and gain insights. These lessons can be completed virtually from home or at school with the support of advisement teachers, classroom instructors, or school counselors. At the end of high school, every student will have a Student Readiness Report that will help them as they move to their next step beyond high school. We are so excited to support students with more in-depth resources!

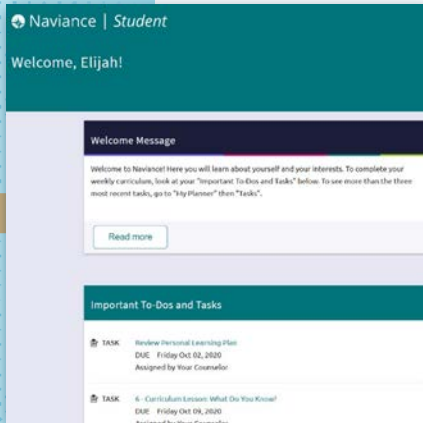

Open your Clever Portal by clicking on the Clever icon on your OPS-provided device.

If you do not have a Clever icon on your device, go to www.clever.com/login and then click on Log In with Active Directory.

Once you are in your Clever Portal, scroll down to the section called "Other Non-Standard Apps" and click on the Naviance icon. If you would like to "favorite" it so it shows up at the top of your Clever Portal, click the heart.

Once in Naviance, you will see your own personal page. To complete your weekly tasks, click on the Task and follow the instructions. To see more than the three most recent tasks, go to "My Planner" then "Tasks".

If your task for the week includes a Curriculum Lesson, you will scroll down and click on the purple square to access curriculum.

Then find the lesson you were assigned. You may need to go back to your Task list to complete your lesson reflection.
